

2018 International Symposia on

# VLSI Technology, Systems and Applications Design, Automation and Test

April 16-19, 2018 Hsinchu, Taiwan

## Sponsorship

The VLSI-TSA and VLSI-DAT Symposia are the premier international events that bring together the best in device design, components technology and automation systems sciences in an environment of technical exchange and state-of-the-art innovations. The 2018 International Symposium will be held at the Ambassador Hotel Hsinchu, Taiwan, during April 16-April 19.

In 2018, VLSI Symposia address the opportunities for the Internet of Things and ongoing Big Data activities. Three Joint Plenary Sessions covering wearable electronics for healthcare, deep learning with High Performance Computing, ARM-based computing (from IoT to servers), VR/AR, Robotics and 5G present the applied reliability and technical challenges. The Joint Special Session offers technology reviews and updates on DPCO ( Design Process co-optimization) and Process and design challenges for mm-Wave RF front end. Furthermore, the 2018 VLSI-TSA and 2018 VLSI-DAT also present five seminars on the emerging technologies and innovations on IC Design and Processing technologies.

In order to make VLSI Symposia successfully glorious, contribution and sponsorship from industry is highly appreciated. We are here to ask for your favor of sponsorship. In return to your generosity we will offer benefits of free admission to this conference. Please see the benefits in accordance with the amount of contribution shown below. For more information of conference, please visit our symposia websites: at <http://expo.itri.org.tw/2018vlsitsa> for VLSI-TSA and <http://expo.itri.org.tw/2018vlsidat> for VLSI-DAT.

Amount of Sponsorship (TWD)	30,000	50,000	100,000
Benefits	(or above)	(or above)	(or above)
Free admission for one attendee	•		
Free admission for three attendee		•	
Free admission for ten attendee			•
One additional free admission for every additional TWD 10,000 to VLSI-TSA or VLSI-DAT symposium		•	•
Company brochures displayed	•	•	•
Company's logo shown on a wall curtain at reception area		•	•
Company's video displayed at reception area		•	•
List on Advisory Committee			•
Company's name shown on program book	•	•	•
Company's website to be hyperlinked		•	•
Company's information shown on half page of program book			•

*\*Free admission is acceptable to both VLSI-TSA or VLSI-DAT.*
