# Paper Review Guidelines for TPSC

STEP (1) : PAPER CATEGORY CONFIRMATION

➲ Log in with your ID and Authorization Code and click login.

➲ All the papers are listed below in your category, you can download all papers as well.

NO	Paper Code	Paper Title	Category
1	TW004	test download	Analog, Mixed-Signal, and RF Design
2	TW005	789 download	Analog, Mixed-Signal, and RF Design
3	TW006	A 0.0072-mm^2 10-bit 100-MS/s Calibration-free SAR ADC Using Digital Place-and-Route Tools in 40-nm CMOS download	Analog, Mixed-Signal, and RF Design
4	TW007	A 7~10.5-Gb/s Reference-Less Linear Half-rate CDR Circuit Using Automatic Band Selector download	Analog, Mixed-Signal, and RF Design

2. Please reconfirm the category and change it if this category is not correct,
   press the <Confirm> button to finish the process.

39	JP036	Improving Gaussian Elimination-based NNA-compliant Quantum Circuit Synthesis by Inserting CNOT Gates download	Emerging Technology Analog, Mixed-Signal, and RF Design Digital, Memory, and AI Chip Design Application, System, Software and Hardware Architecture Design Automation and Test Methodology **Emerging Technology**
40	AS040	Essence of FET's (Field Effect Transistor) in the Today's World download	Emerging Technology
41	AS042	Essence of FET's (Field Effect Transistor) in the Today's World download	Emerging Technology
